

MESSAGES OF SPIRITUAL ENLIGHTENMENT AND TRUTH

A wise man acts as if he were deaf when he hears gossip, and dumb when someone is accused. But the fool hears everything and says much.

SCIENCE OF HEALTH

by
Dr. M. Doreal

Everyone desires to have a strong healthy body, but there are very few people who do not have at least one ailment that keeps them from being in perfect bodily condition.

Fundamentally the cause of all sickness and disease is an unbalanced condition of the polarity of the body. All things in nature exist in manifestation, because of the presence of two polarities in all creations. When the positive and negative polarities are in perfect balance, it is impossible for the body to suffer the presence of the inharmonious conditions of sickness and disease.

You will note that I have made a differentiation between sickness, and disease. Sickness is primarily brought about by negative thinking. Disease is a condition brought about by outside influences or germs. Before a disease germ can be propagated in the human body to such a degree that it will cause disease, it must find an unbalanced condition of the polarities. Thus we can see that fundamentally all bodily sickness and disease are caused by the same thing - inharmony induced by wrong mental conditions.

SPIRITUAL HEALING

by

Dr. M. Doreal

(Part Three)

In the life of Jesus we are told how he went over the country and there were thousands brought to him for healing but he did not heal all the thousands. He picked one here and one there and He said, "According to your faith, so be it." It was the acceptance of the power of healing within themselves. He was the channel but the actual healing took place within themselves and the consciousness of that individual. No healer heals another person. He merely puts the person in a state of consciousness where the patient releases his own power.

A person in a hypnotic trance can have a piece of ice put on his arm and told it was a red hot iron and it would actually burn and leave a mark. It was the fire that burned, not the ice. It was his own acceptance of burning that caused the blister. Then he is told that now a healing agent has been placed on it and it is all gone and it disappears.

It was the acceptance of that illusionary condition by the consciousness and the body acted to the illusion that was given to the consciousness. The burn was there if the consciousness accepted the burn being there. The burn was gone if the consciousness accepted the healing agent as being there.

That is true if there is a physical condition of illness in the body. As long as we accept that condition of illness it is real. Some schools of healing say sickness and disease are all illusions of immortal mind. Basically, that is true. Mind is creative. While the consciousness holds that idea it is real to that person and real to that environment because their consciousness has accepted that fact. The healing takes place when we change our recognition or consciousness of it. Until we accept the fact the condition of health is there and not the condition of illness. The person can say, "This illness is not real." Basically, perhaps, it is not real but it is very real to the person that has it, and it can kill a person.

Nothing is real; it only appears to be real. Nothing exists in the same form forever. Everything changes, even an object which appears impervious to the passage of time actually is changing and wearing away by the law of ionization, radiation. That is the reason

there can be such a thing as an indelible record in the Cosmos of everything which is and has been because of that law.

A great many people say, "Spiritual healing is just raising your eyes and calling down the Divine power," but what are you going to do? Call the Divine power down into a cesspool? Do you think that the Divine is going to harmonize with such a condition? The Light does not join darkness. What you have to do is get your consciousness in such a state of balance and harmony that the Divine Light will attune with it and if the Divine Light attunes perfectly with your consciousness, then you become so harmonious that your body will react to it and the negative patterns which have maintained that disease in the body will be eliminated and the disease vanishes.

When Jesus travelled over Palestine he did many miracles, so-called, because he understood the law and he was able to impart that knowledge to his disciples so they could go forth and do likewise. He returned to Nazareth and back there everybody knew Jesus as a carpenter's son. He was just one of the home town boys. They said, "We heard about all these things you have done elsewhere," so he departed and did not many miracles because of their unbelief. They could not accept spiritual power as manifesting within him. They knew him too well.

In a sense that is true of the individual who should be able to heal himself. The individual knows himself so well he cannot heal himself. I have had them say, "Well, I can heal other people but I cannot heal myself." Why? They can become unconscious of the inharmony and negation within the other person but they cannot become unconscious of it within themselves. That is the reason a person must develop the power to bring about the power of perfect consciousness, of balance, order, and well-being.

In one of our early classes we performed an experiment. That was about twenty years ago. All the principles and things that we have, we have tested and tried in more ways than one and we used to have a group that were willing to have things tried out on them and we tested ourselves. I did it too. For instance, one time a group of us went eleven days and nights without sleep because we had read a medical article that said a person would die if they went more than ten days without sleep. We ate lightly at the time, stayed together and each saw that the other did not sleep. We picked out a person who had never been sick a day in his life, got the group together and took occasion to say every time we would meet him, "You look sick." A little while later somebody else would meet him and say the same thing and before he had gotten to the twelfth person he was not feeling so

well and pretty soon began to see himself as sick, began to get pains, went home and went to bed. After we told him what we had done. We had to keep out of his way for a few days. That person was not sick but finally, because we apparently accepted the fact that he was sick, we got him to accept the same fact.

WORSHIP

God made my cathedral
Under the stars;
He gave my cathedral
Trees for its spires;
He hewed me an altar
In the depth of a hill
He gave for a hymnal
A rock-bedded rill;
He voiced me a sermon
of heavenly light
In the beauty around me--
The calmness of night;
And I felt as I knelt
On the velvet-like sod
I had supped of the Spirit
In the Temple of God.

The Brotherhood Newsletter

Dear Students and Friends,

Our beautiful spring weather has once again left us for a cold, wintry snow which is still falling lightly as we write. The moisture is always welcomed in any form, but it certainly dampened the blossoming of spring. It is supposed to stop soon. So, it will probably melt quickly, and the greenery will once again peek through.

Mr. and Mrs. Ronald Calderon and son, from Huntington Beach, California, were visitors in Shamballa Sunday. They attended the church services in the afternoon. They are making plans to leave California and make their home in Colorado Springs. We were most happy to have them visit with us, and our good wishes go with them in all their constructive endeavors.

In spite of the snowy interruption of our Spring, some of the students have already enjoyed the special joy of a trip away from home. The James Butlers spent some time in Phoenix, Arizona recently, and returned home more rested. Also, Mr. and Mrs. Howard Foster report a wonderful trip to California, where Mrs. Foster's sons and their families reside. They had a very nice visit, at an ideal time of year for such a trip. Vacations from the mundane always find us returning with a

refreshed, renewed outlook on our lives. We are ready to begin anew on our goals and objectives, with added enthusiasm.

Plants and seeds were exchanged by various members at the monthly meeting of the Fireflies. Just in time for gardens, everyone brought sample starter plants or seeds of various kinds to share with the others. Also among the business, was the discussion of recent invitations to prospective new members. The Fireflies are going to encourage some of these ladies before the next meeting, as there seem to be several interested in participating. Lists of firemen and their phone numbers have been posted in each home for the past several years. These lists are now being revised by the Fireflies, so that each one will have a current listing. After the meeting adjourned, delicious refreshments were served by the hostess, Marthalene Evans. A beautiful vase was the traveling prize won by Mavis Coyle.

"Mantrams" was the topic chosen by Dr. Emory Largent for the Sunday Church Service. Dr. Largent stressed the importance of daily use of mantrams, and encouraged his listeners to participate in the use of several. He gave five important power words and their suggested use. He reminded us that these mantrams and words do work if used consistently and properly.

THE EMERALD TABLETS OF

THOTH THE ATLANTEAN
*A Literal Translation by
Doreal, of One of The Most
Ancient and Secret of the
Great Works of the Ancient
Wisdom*

Oh Men! List to the Voice of Wisdom; list to the Voice of Light, Mysteries there are in the Cosmos, that unveiled fill the world with their light. Let he who would be free from the bonds of darkness first divide the material from the immaterial, the fire from the earth; for know ye that as earth descends to earth, as also fire ascends unto fire and becomes one with fire. He who knows the fire that is within himself shall ascend unto the eternal fire and dwell in it eternally.

Remember, Oh Man! That all which exists is only another form of that which exists not. Everything that has being is passing into yet other being, and thou thyself are not an exception.
